EXPERIENCE

Jan 2023 – Mar 2023
Kernersville

Full Stack Web Developer
Coder Foundry
- Developed an enterprise-level project and ticket tracking web application, **'Hoist** ⧉ **'**, utilizing ASP.NET, MVC, and PostgreSQL. Allows companies or users to track project life cycles, tickets, and their updates. Utilizes invite-based company security and user roles.
- Engineered **'Kraken the Code'**, a multi-tenant blog platform, leveraging user roles for user management. Implements RESTful APIs to allow blog posts to be pulled from the site.
- Designed **'Open Sails'**, a contact management platform, using ASP.NET and PostgreSQL for efficient management of personal and professional connections.

Oct 2020 – Oct 2022
Biloxi

Sales Associate
Dillard's Inc
Client oriented sales with a focus on providing a tailored experience.
- Communication - Employed active listening and open dialogue to understand and fulfill client needs.
- Presentation - Effectively demonstrated product solutions to meet client needs.

Sep 2017 – Oct 2020
Massillon

Shift Leader
Walgreens
Managed front-end and pharmacy operations, ensuring seamless service delivery in a high-pressure environment.
- Interpersonal - Fostered a positive team environment through regular, engaging staff meetings.
- Problem-Solving - Utilized lateral thinking to devise optimal solutions, minimizing service disruptions for customers.
